A Great Victory A Terrible Case of Scrofula Cured by

Hood's Sarsaparilla

"In the winter of 1819 I was attacked with Scrofula in one of the most aggravating forms.
At one time I had no less than thirteen large sea over and around my neck and throat, naily exuding an offcusive mass of matter disgusting to behold, and intolerable to endure. It is impossible almost intolerable to endure. It is impossible to fully describe my sufferings, as the case was complicated with Chronic Catarrh. After three years of misery, having been treated by three physicians, I was worse than ever. Finally, on the recommendation of W. J. Huntley, druggist, of Lockport, I was induced three physicians, I was worse than ever. Finally, on the recommendation of W. J. Huntley, druggist, of Lockport, I was induced to try Hood's Sarsaparilla. And now, after having taken rewire bottles, within the last twelve months, the scrotinous cruptions have entirely ceased, and the abscesses have all disappeared, except the unsightly sears, which are daily becoming 'smaller by degrees, and beautifully less.' I do not know what it may have done for others, but I do know that in my case, Hood's Barsaparilla has proved an effective specific mixed. As an evidence of my gratitude I send these facts unscheided, and I am ready to verify the authenticity of this cure, by personal correspondence with any one who doubts it. 'Charatras A.
